

**Create. Contribute.
Connect.**

Problem

**Creators are eager to participate in Web3,
but launching an NFT project can be
confusing and overwhelming.**

**Specialized Web3
developers required**

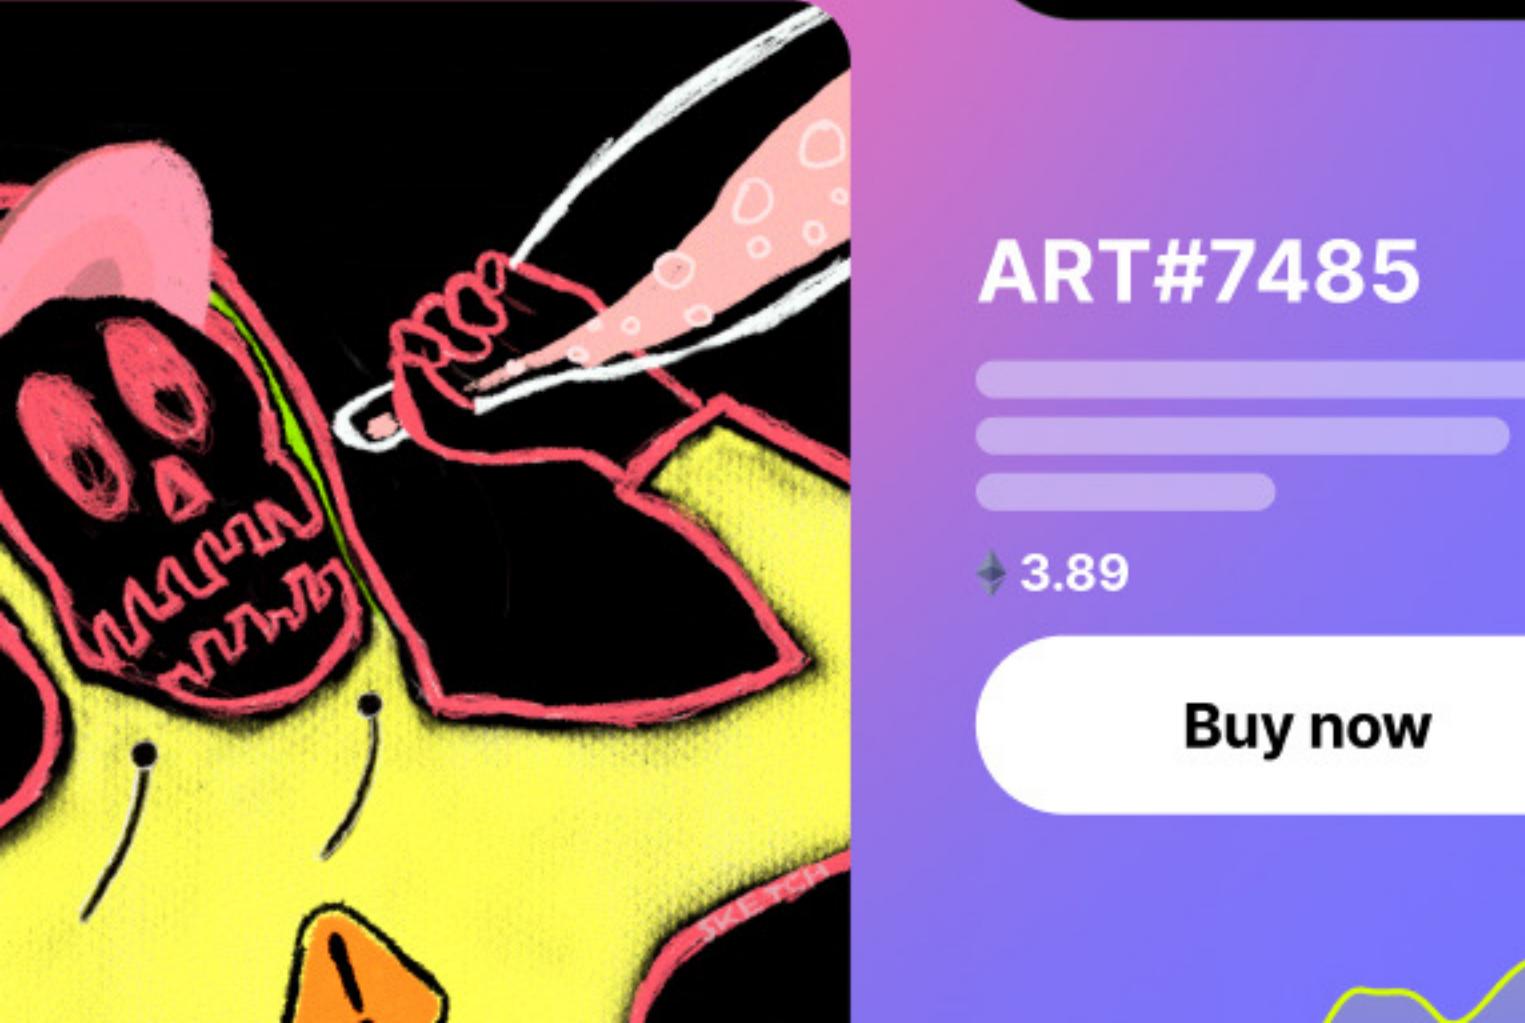

**Time consuming
& expensive**

**Lack of experience
results in inaccessibility**

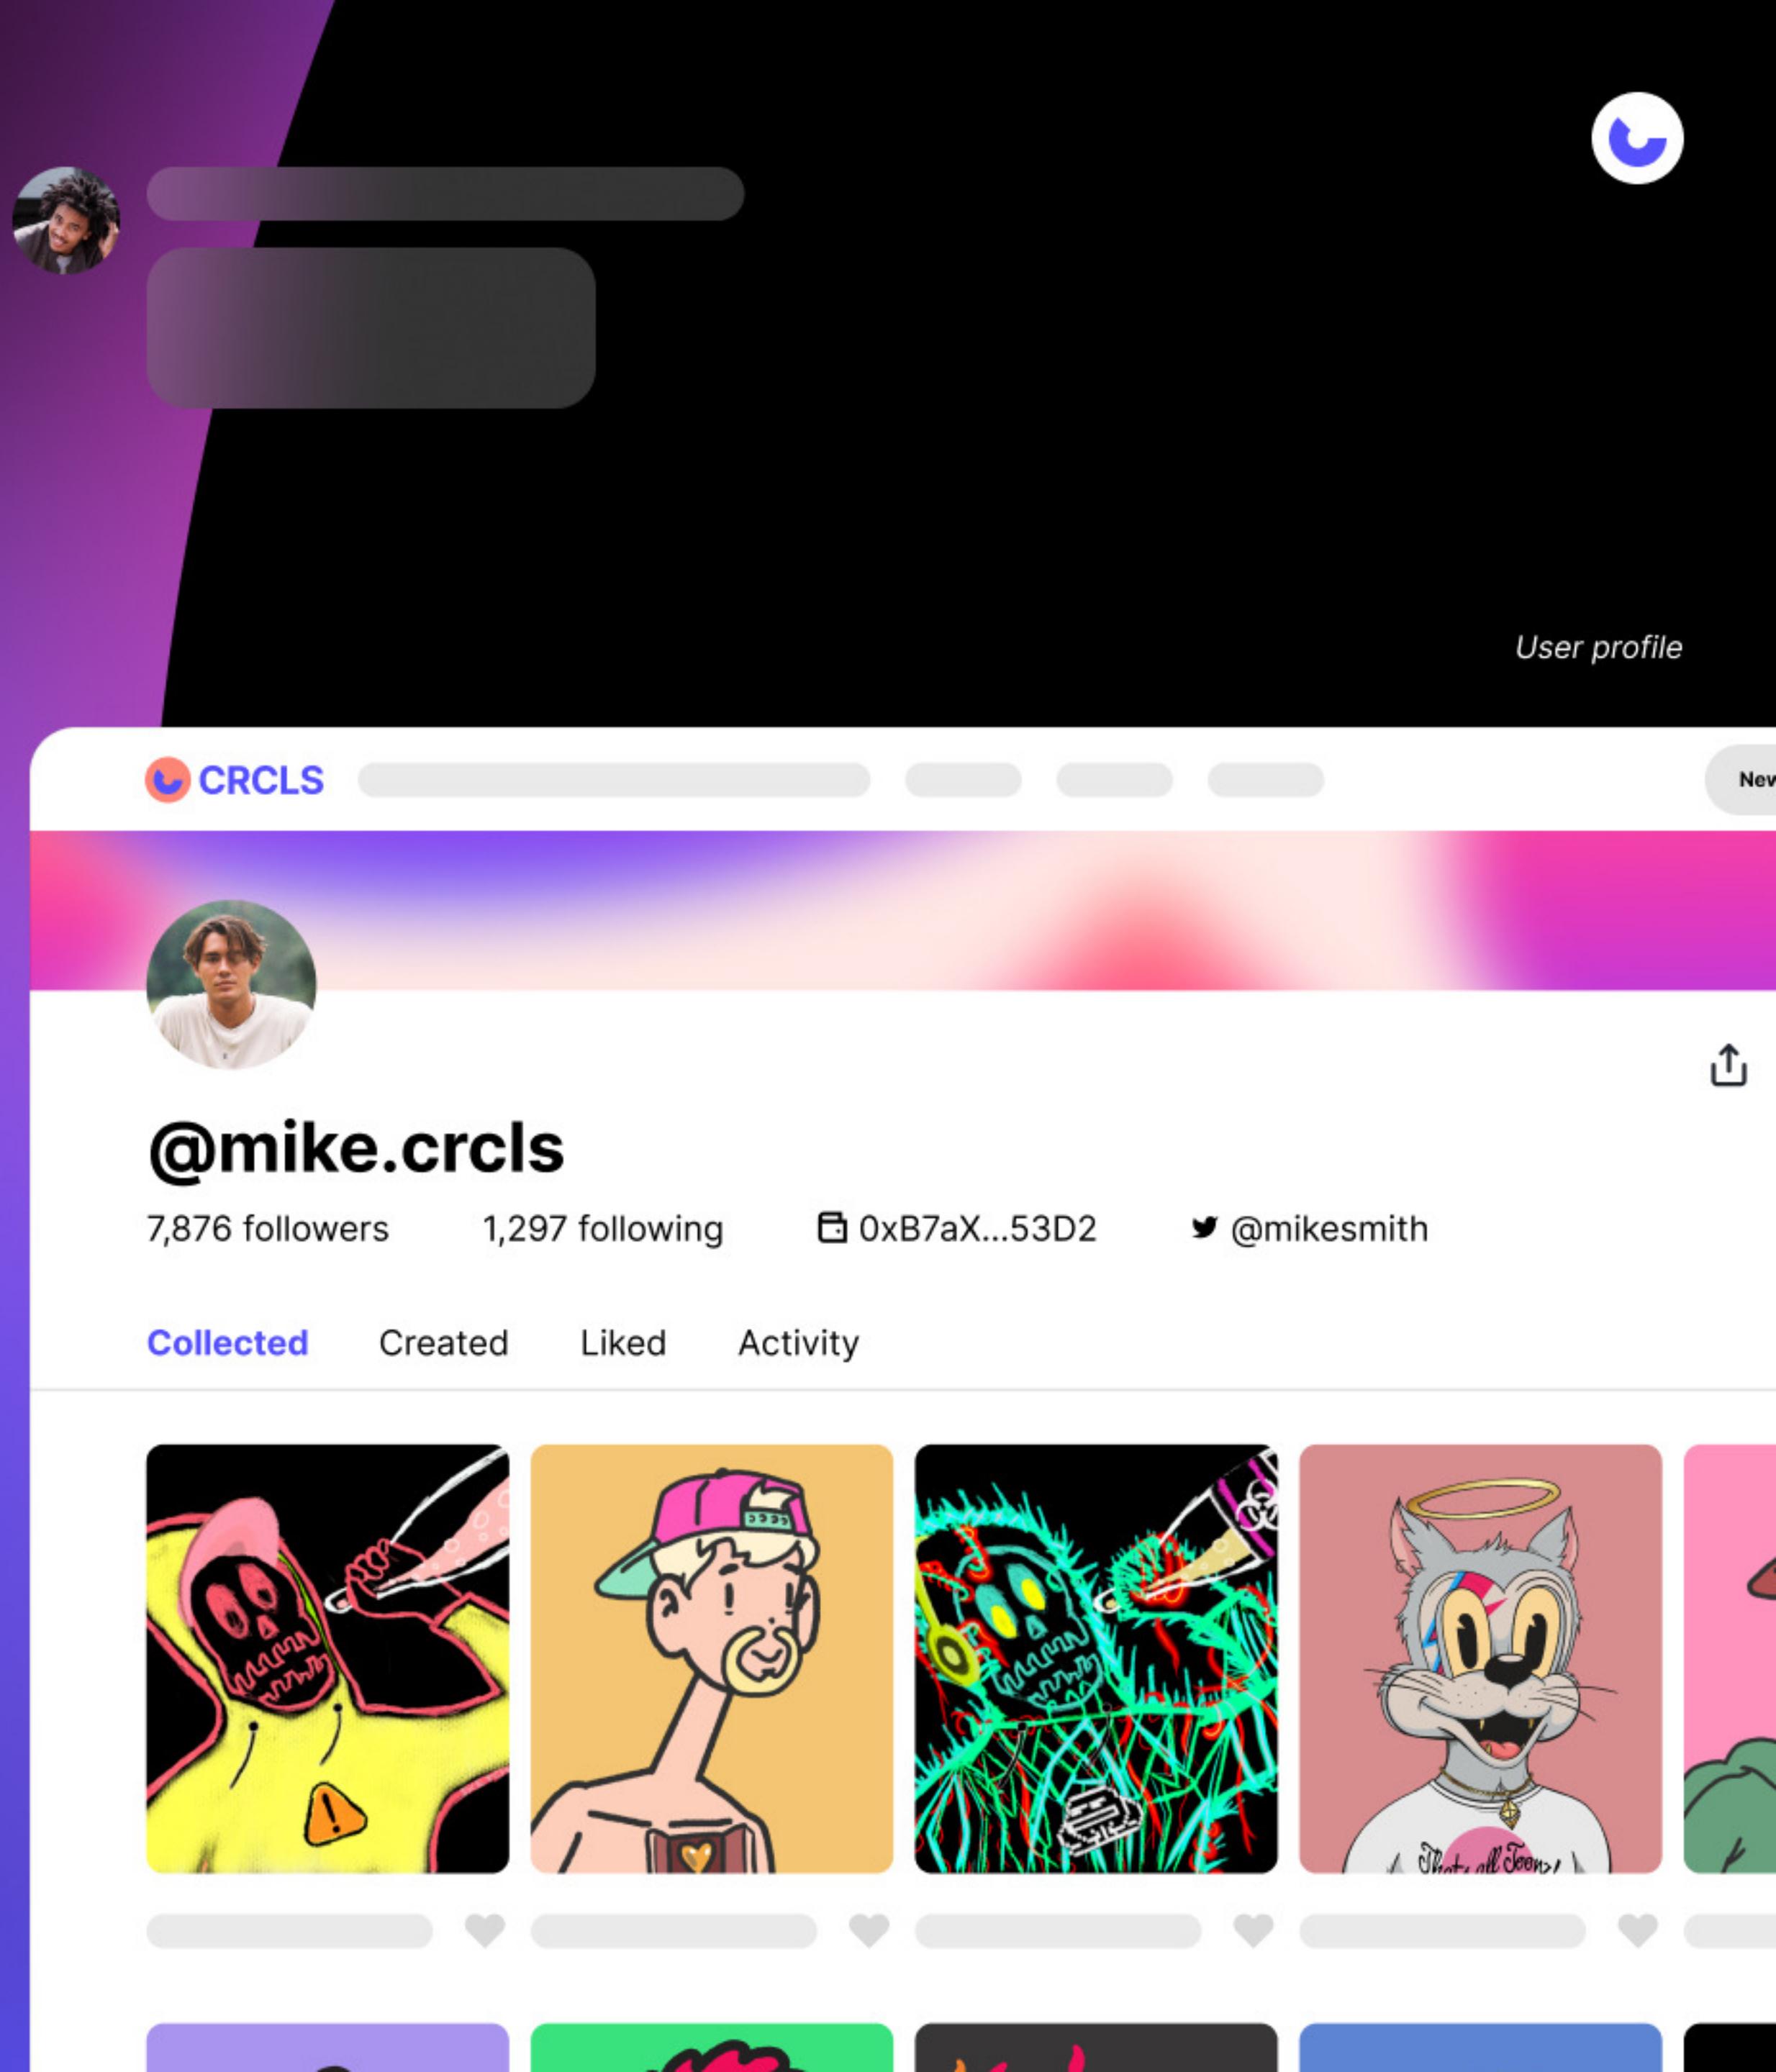

**Multiple platforms
to manage**

Solution

A single tool to build your fully customized marketplace and NFT-gated community. No code required.

Meet CRCLS

Create value and engage your community, all-in-one:

Community

Marketplace

Minting

Discovery

The screenshot displays the CRCLS mobile application's user interface. At the top, there is a navigation bar with the CRCLS logo, a search bar labeled "Search Circles", and a "New Circle" button. Below the navigation bar, the main content area is divided into several sections:

- Following:** A list of users followed by the user, including @ellen.crcls, @tom1234.eth, @BrodyD_22.crcls, @jesse.brown.crcls, @tommy_nks.eth, and @saymynname.eth.
- Trending Circles:** A grid of five circles representing trending communities: CryptoPunks, Mekaverse, Alien Frens, Los Muertos, and Doodles. Each circle has a blue button below it with the name of the community.
- Latest Activity:** A feed showing the latest activity, such as "@ellen.crcls joined Losers Circle Today".
- My Circles:** A list of the user's own circles, represented by small circular icons.
- Community:** Sections for "Pages" (a list of community pages), "Content" (a list of community posts), and "Activate" (a list of community activation options).

Creators

**CRCLS empowers artists,
influencers, and creators of
all kinds to earn income and
create value for their own
NFT collection.**

Fully customized rektguy Circle

Create & Launch Your Project

Complete control and ownership with your Creator Pass NFT, including your subdomain, smart contract and minting functionality

No-Code Needed

Build and customize your Circle and contracts. Pick from a template, connect to an existing contract, or create it from scratch

Fully Customizable

Own and manage your end-to-end user journey to highlight your project, tailor your marketplace, and include them in your community, on one single platform

The screenshot shows a web-based application interface for creating and customizing NFT projects. At the top, there's a navigation bar with the logo 'osf.art' and links for Home, Mint, About, Roadmap, Team, FAQ, Store, and Community. Below the navigation, the word 'ART' is prominently displayed in white capital letters. To the left of the main content area, there's a circular color palette. In the center, there's a preview image of a colorful, stylized skull wearing headphones and a biohazard symbol. At the bottom, there's a dark toolbar with five icons: a color wheel, a text 'T', a speech bubble, a photo camera, and a location pin.

Members

CRCLS is a collection of custom
NFT-gated experiences waiting
to be discovered.

Mint your own custom profile NFT to showcase your collection

Follow

Buy & Sell NFTs

Discover new collections and grow the value of your portfolio through integrated, secure transactions and multi-wallet support.

Connect & Discover

Find and join communities you are passionate about, connect with like-minded people, and stay up to date with notifications and news.

Members Only Perks

Mint your profile handle with your Member Pass NFT. Uncover unique experiences, access allowlists, exclusive airdrops, raffles and giveaways.

Website & Minting

A Circle is a fully-customized,
community-enabled NFT
marketplace, that makes
minting your project simple
and easy.

Mint a Circle

Choose a project name that will become your subdomain and mint a Creator NFT Pass that gives you ownership over your Circle.

NFT-gating

Decide how you want to control access to your project. Create public or NFT-gated pages and sections.

Build your unique NFT online presence

Start with a template or a blank page and customize anything. Add a store and sell your NFTs.

Connect a contract

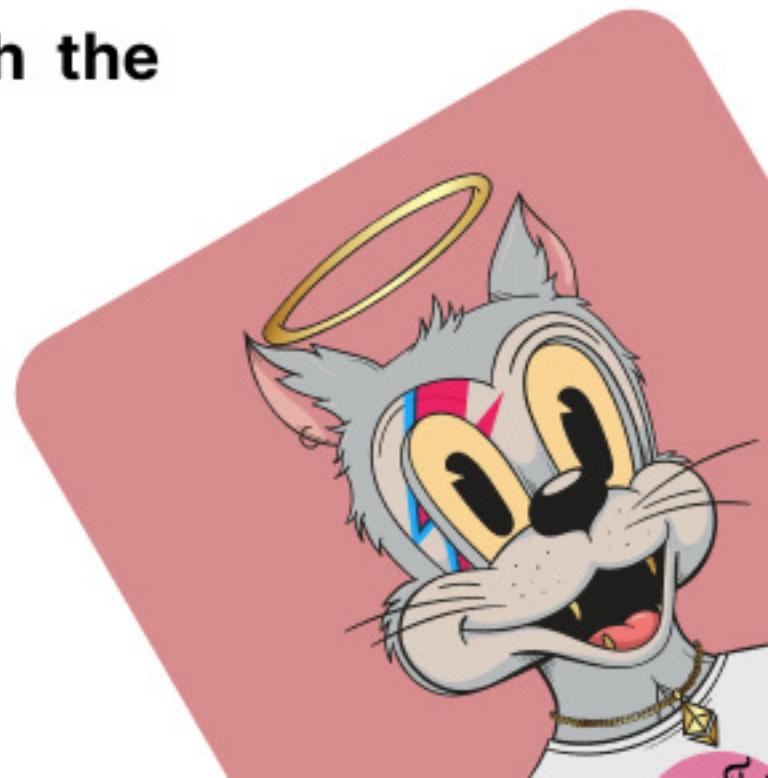

Create a minting page and connect it to a contract or import an existing, already minted NFT collection.

Multiple contract options

Use the CRCLS contract builder, find one in the CRCLS marketplace, or bring your own. Upgrade your contract without losing your state.

Secure

Keep your project safe from hacks and exploits with the CRCLS contract builder.

Engage with your community in the fully integrated chat

The image shows a mobile application interface. On the left, there's a vertical sidebar with three user profile icons: a cartoon character in a cap, a person in a mask, and a cat-like creature. Below these are sections titled "Pages", "Content", and "Activate", each with three placeholder items indicated by a "#". The main area displays a feed of posts from a user named "mike.crcls" with the handle "OSF.ART". Each post includes a small profile picture and a large, semi-transparent purple rectangular overlay. The background of the app has a pink-to-purple gradient.

Community

For Creators:

Build your following of NFT-gated members on the same platform they transact on

For Members:

Join the Circles that you care about, with enhanced access, perks and features for NFT holders

Discovery

For Creators:

CRCLS makes it easy for your current and prospective NFT holders to find your project, growing your audience

For Members:

Find new projects, newsworthy information, interests, and new contacts to grow your network and avoid FOMO

The screenshot displays the CRCLS mobile application's user interface. At the top, there is a navigation bar with the CRCLS logo, a search bar labeled "Search Circles", and a magnifying glass icon. Below the navigation bar, there are two main sections: "Following" and "Trending Circles". The "Following" section lists several users with their profile pictures and handles: @ellen.crcls, @tom1234.eth, @BrodyD_22.crcls, @jesse.brown.crcls, @tommy_nks.eth, @saymyname.eth, and @steven.k22.eth. There is also a "See more" link. The "Trending Circles" section shows five trending circles with their names and small profile icons: CryptoPunks, Mekaverse, Alien Frens, Los Muertos, and Doodles. Below these sections, there is a "Latest Activity" section featuring a recent update from @ellen.crcls joining the "Losers Circle" today. Further down, there is a "Members you may know" section with four user profiles: @bruceW11_2.eth, @Alex_DE.eth, @JEPH_sale.crcls, and @mark.crcls, each accompanied by a plus sign (+). At the bottom of the screen, there is a "User dashboard" button.

User dashboard

Why Now?

CRCLS strives to foster the innovation of Web3 and make it easier for the average user to access and participate in the revolution of NFT technology

Build real ownership and utility where cryptocurrency extends beyond investment, collectibles, and art

WAGMI - Be part of the future of Web3

The opportunities for NFT utility are endless, but building the future takes time.

As crypto recovers from it's recent crash, consolidation is inevitable.

CRCLS will provide a single tool to make it easier for existing and future investors to participate in the innovation and growth of the industry.
